If the 766 or SES system does not already contain this information/data, then the information/data shall be entered into the 766 or SES system.
- (c) Create NUREG-like Reports - For each fiscal year previously researched by the contractor (FY1989 through FY1994), the contractor shall prepare a publication similar in format and style to an NRC NUREG publication. The report shall serve as a final product for the contract and will be delivered in both hard copy and electronic (3.5 inch diskette) formats. The report shall contain a listing by year and by docket number (i.e., power and non-power reactors and vendors) of all of the inspection reports for that docket.
