Dear Mr. Lamberski:

The purpose of this letter is to obtain acceptance, or refusal, by your client, John G. Aufdenkampe, to submit to a polygraph examination with respect to his compelled, sworn testimony to the NRC on June 16, 1993.

In response to your and Mr. Domby's telephonic request of Investigator L. Robinson, of our office, on July 20, 1993, this letter will serve to formalize Mr. Robinson's earlier efforts to obtain such acceptance or refusal. In addition, per the aforementioned telephonic request, the following information is hereby provided:

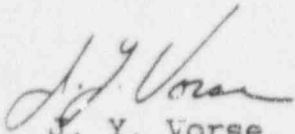

The purpose of this polygraph examination is to determine the veracity of your client's compelled testimony, supra.

If your client agrees to take a polygraph examination, the specific examination questions will be made known to you and your client immediately prior to the examination.

The general area of questioning, as in your client's compelled testimony, pertains to the facts and circumstances surrounding the presentation of test data, by Georgia Power Company to the NRC, regarding the Emergency Diesel Generators at Plant Vogtle, Unit 1, immediately subsequent to the Vogtle Site Area Emergency of March 20, 1990.

The intended use of the polygraph results is as additional evidence in this investigation. Obviously, no investigative conclusions are made solely upon the results of polygraph examinations, but are made upon the weight of all the evidence obtained.

In view of the fact that you have been aware, prior to the issuance of this letter, of this office's request for your client's acceptance or refusal to submit to polygraph exam, I would expect your client's decision on this matter within one week of the date of this letter.

J. Y. Vorse,
Field Office Director
Atlanta Field Office of Investigations, NRC
