Re: Office of Investigations (OI) Review of
Georgia Power Company Statements Concerning
The Vogtle Electric Generating Plant Diesel Generators

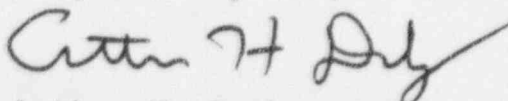

Dear Mr. Robinson:

Much has happened in the last few days to frustrate our mutual desire for an open exchange of facts and views bearing on the matter under investigation. Rather than recriminate about the "eleventh hour" conditions imposed by your Office, we would like to make a fresh proposal for an airing of the entire matter. We would like the opportunity, and hereby request the opportunity, to make our anticipated presentation concurrently to senior representatives of OI, the Office of Enforcement and Office of General Counsel, as proposed in Mr. Vorse's letter of August 23, 1993, to receive questions and comments of those present, and to do so "on the record," i.e., with transcription.

Since this matter has dragged on for over three years, an investigative presentation of this type is well overdue. The best way to bring the matter to resolution is to have an open illumination of facts and views in an objective context.

Please let us know if this can be arranged soon.

Very truly yours,

Arthur H. Domby
