REVISED MONTHLY OPERATING REPORT FOR SEPTEMBER 1996

Gentlemen:

TU Electric submitted the Monthly Operating Report for September 1996 to the NRC by letter TXX-96482 dated October 15, 1996. Subsequent to the transmittal of this report, TU Electric discovered an error in the computer input value corresponding to Unit 2 reactor critical hours which requires correction to page 5 of the attachment (ie. reactor critical hours, reactor service factor and reactor availability factor for Unit 2).

Please find attached the corrected Monthly Operating Report for September 1996, prepared and submitted pursuant to Technical Specification 6.9.1.5 contained in Appendix A to the Comanche Peak Steam Electric Station Units 1 and 2, Operating License Nos. NPF-87 and NPF-89, respectively. Should you have any questions, please contact Jacob M. Kulangara at (817) 897-0124.

Sincerely,

C. L. Terry
