Gentlemen:

Subject: Inspection Report No. 85-01

This refers to the routine safety inspection conducted by Ms. Jenny M. Johansen of this office on May 7 and 8, 1985 of activities authorized by NRC License Nos. 20-01958-05, 20-01958-06 and 20-01958-07 and to the discussions of our findings held by Ms. Johansen with yourself, Dr. Jeffrey, Mr. Epstein, Dr. Reis, Mr. Maddox and Mr. Bell of your staff at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your licenses. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, measurements made by the inspector, and observations by the inspector.

Our inspector also verified the steps you have taken to correct the violations brought to your attention in the enclosure to our letter dated April 1, 1983. We have no further questions regarding your action at this time.

Within the scope of this inspection, no violations were observed.

During the discussion of our findings at the conclusion of the inspection Ms. Johansen expressed our concern for adequate staffing of the Radiation Safety Office. From these discussions it is our understanding that University Management is aware of the staffing needs of the Radiation Safety Office and will be reviewing the Radiation Safety Program in order to assure that adequate staffing is provided for your broad licensed program. We will review this matter during the next inspection of your program.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter will be placed in the Public Document Room.

No reply to this letter is required. Your cooperation with us in this matter is appreciated.
