RE: In re Georgia Power Company, et al. (Vogtle
 Electric Generating Plant, Units 1 and 2)
 NRC Docket Nos. 50-424 and 50-425 OL

Dear Laurie:

In its Memorandum and Order of June 4, 1985, the Atomic Safety and Licensing Board granted Joint Intervenors' Motion to Compel with respect to that part of interrogatory B-47 of the Joint Intervenors' Third Interrogatories that requested production of the "current Operators' Manual for Emergency Action." The Applicants do not have any document entitled "Operators' Manual for Emergency Action." Enclosed herewith, however, is a copy of the Emergency Operating Procedures for VEGP. Those procedures that have been marked as "DRAFT" are in the process of being finalized and could be changed prior to final issuance.

Yours truly,

James E. Joiner
