Attention: Mr. Michael McCann

Re: Application for Material License

Gentlemen:

Enclosed please find McLouth Steel Products Corporation's application for Material License, dated April 24, 1985. Also enclosed herewith is McLouth Steel Products Corporation check number 212077 in the amount of \$230.00 for payment of license fees in accordance with 10 CRF 170.31.

As I have discussed with Mr. McCann, the cost savings associated with the Safety Ray Sensing System of which this application is the subject is in the amount of approximately five hundred to seven hundred thousand dollars per month. As a result an expeditious review of this application would be most appreciative inasmuch as McLouth Steel is a steel producer that has been dramatically impacted by the present conditions in the United States steel industry.

To that end, if you should have any questions concerning this application, please do not hesitate to call the undersigned at (313)246-4008.

Very truly yours,

McLOUTH STEEL PRODUCTS CORPORATION
