

The Toledo Hospital

March 30, 1984

Mr. Bruce S. Mallett
Nuclear Regulatory Commission
Region III
799 Roosevelt Road
Glen Ellyn, Illinois 60137

Dear Mr. Mallett:

#34-01581-01 → I am, hereby, requesting the termination of Nuclear Regulatory License #34-1581-1. This license is registered to Dr. C. Douglass Ford at 2361 West Bancroft and Evansdale, Toledo, Ohio 43607. Since this license was for I-131 in capsule form only, no survey for residual radioactivity was performed. The single Cs 137 source (CJuci) used to check the survey meter has been returned to the Toledo Hospital Nuclear Medicine Department. All radioactivity having been removed, I am also requesting that the area be approved for unrestricted use.

Sincerely,

James M. Johnson
James M. Johnson
Technical Manager
