GENTLEMEN:

Inspection Reports 50-321/85-09 and 50-366/85-09 were transmitted by your letter of April 22, 1985. Georgia Power Company has been unable to complete our response to those findings due to commitments associated with the return to operation of Plant Hatch Unit 2 following the current refueling outage.

Our response to the referenced report will be submitted by May 29, 1985 as discussed with and agreed to by Mr. Butcher (acting for Mr. Panciera) of your staff. If you have questions regarding this delay, please contact my office.

Very truly yours,
