Nuclear Materials Safety Section A
Division of Radiation Safety
and Safeguards
Nuclear Regulatory Commission
631 Park Avenue
King of Prussia, PA 19406

Dear Mr. Kinneman:

An accountability log of our sealed sources was started on 2-18-85. The radioactive element in the sealed source and the identifying number of the sealed source will be recorded. The activity of the sealed source on the date of record and the location of the sealed source will be recorded. The physical inventory will be completed quarterly as long as we have a radioactive materials license.

We were in compliance on 2-18-85 and expect to remain in compliance.

Sincerely yours,

Franklin B. Olney, M.D. R.S.O.
