RE: PROJECT STATUS.

Dear Mr. Eves:

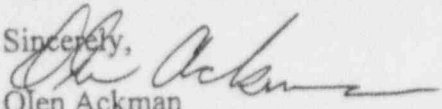

Pursuant to your request of August 6, 1996 on the project status of Shieldalloy's Cambridge, Ohio site, I have outlined the following deliverables which Ohio EPA has received for Shieldalloy and is currently reviewing:

- Executive Summaries for the Remedial Investigation and Feasibility Study
- Ecological Risk Assessment, Phase II revised Chapter 7 language.

Upon completing the review of these last remaining deliverables all documents have been reviewed. This list does not address the issue of data validation. If you have questions concerning the status of the data validation please direct your calls to Robert Karl, Ohio AG, (614) 466-2766.

If you have any questions, please feel free to call me at this office.

Sincerely,

Olen Ackman
Site Coordinator
Division of Emergency and Remedial Response
