William Beckman, Manager  
Environmental and Technical  
Services Department  
Consumers Power Company  
135 West Trail Street  
Jackson, MI 49201

SUBJECT: NRC INSPECTION REPORT NO. 96002

Dear Mr. Beckman:

This refers to the inspection conducted on October 15, 1996 at the Campbell plant in Holland, Michigan. The purpose of the inspection was to determine whether activities authorized by the license were conducted safely and in accordance with NRC requirements. At the conclusion of the inspection, the findings were discussed with Emmanuel Tuazon and other members of your staff.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel and observation of activities associated with the field use of a portable moisture density gauge.

No violations of NRC requirements were identified during the course of this inspection.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practices," a copy of this letter will be placed in the NRC Public Document Room (PDR).

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

*Original signed by Cynthia D. Pederson*
