Dear Mr. Eves:

This refers to your license application dated 12/20/94, NRC reference XSOU8735, requesting authority to export 20.10 kilograms of natural uranium and 63.05 kilograms of thorium, in the form of CANAL slag fluidizer, to Trinidad to be used in steel production.

Since the Government of Trinidad has not agreed to accept the material, the Executive Branch has not been in a position to forward favorable views to the NRC. We are, therefore, returning without action the subject export license application.

If you have any questions regarding this case, please call me, or Betty Wright on my staff, at (301) 415-2342.

Sincerely,

Original signed by
