Material Licensing Branch  
Division of Fuel Cycle and Materials Safety

Reference: Mail Control Number 17992, Dept. of the Interior  
Geological Survey, Syosset, New York  
License Renewal and your letter of Dec. 10, 1984

Dear Mr. Carrico:

Please be advised that I am licensed by the NRC through Freehold Area Hospital, Freehold, New Jersey and previously have filed the documentation required through John F. Kennedy Medical Center, New Jersey for my procedures and techniques to calibrate survey meters and perform leak test analysis. Additionally, I am licensed by the State of New York Department of Health through numerous hospitals such as St. John's Episcopal Hospital, Smithtown, N.Y., Central Suffolk Hospital, Riverhead, N.Y. and an additional twelve hospitals throughout New York State. I am also licensed by the City of New York Office for Radiation Control at numerous hospitals to perform these studies. I suggest you refer to the hospitals mentioned in New Jersey and in turn you will find the filings referencing the above matter. If you require any additional information, please do not hesitate to contact me directly.

Very truly yours,

  
Patrick F. Panetta, M.Sc.  
Radiological Physicist
