Mr. Glenn Catchpole  
Ogle Petroleum, Inc.  
P. O. Box 5549  
Santa Barbara, California 93108

Dear Mr. Catchpole:

This letter is to confirm our conversation of February 11, 1980. The Department of Interior, Fish and Wildlife Service (DOI) has indicated in letters dated November 23, 1979, and February 1, 1980, that biological assessment must be performed to determine the impact of the proposed Ogle Bison Basin Project on the bald eagle and black-footed ferret. Ogle is requested to perform this biological assessment in accordance with Wyoming State guidelines; information to be provided by March 7, 1980. For your reference, both DOI letters are enclosed along with a recently performed biological assessment performed by Rocky Mountain Energy Company in Natrona County, Wyoming.

If you have any questions, please contact me in Washington, D. C. at (301) 427-4103.

Sincerely,

Ronald S. Kaufmann  
Uranium Recovery Licensing Branch  
Division of Waste Management
