RE: Renewal of Nuclear License

Dear Sir:

Approximately two (2) weeks ago, we were notified by a USNRC fieldman that our license for a nuclear moisture density gauge was to expire at the end of May, 1985. He told us that to renew our license we had to talk to Earl Wright, which we could not do until this date.

I have spoken with Mr. Earl Wright and by his direction I am writing this letter.

This letter serves as our official request to renew our nuclear license no. 45-1924-01. It is understood that we are governed by and must follow all procedures and regulations agreed to under our original license.

Enclosed is our renewal fee of \$120.00.

Very truly yours,

HIGGERSON-BUCHANAN, INC.
