Licensing Department Status Report
NRC Action Items

The left hand column indicates UE's priority for approval or review for NRC planning purposes. At NRC's request, items have been prioritized. The priority integrates future submittals which are currently planned. The future submittals are listed on Table 3. The priorities will be updated on a periodic basis as items are added or deleted or as circumstances change. The responsible Licensing Engineer is indicated in the comments column.

Table 1

AMENDMENT REQUESTS
