

MAY 24 1985

Docket No. 30-17096

License No. 37-19180-01

MEMORANDUM FOR: Maureen Moriarty, Licensing Assistance Section, FCMS, NMSS
FROM: John D. Kinneman, Chief, Nuclear Materials Safety Section A
SUBJECT: EXPIRED LICENSE, T & O TOXICOLOGY, INCORPORATED,

On February 19, 1985 Region I conducted a special inspection at T & O Toxicology, Incorporated, Spinnerstown, Pennsylvania, for the purpose of determining the status of their licensed material. During this inspection, a licensee representative, Dr. Oscar Moreno, President, stated that the company had ordered material (carbon-14) once in order to perform a metabolism study. He stated that the material was never used at their facility and that all the work was performed at another laboratory, Enviro-Bio-Tech Ltd./Xienta Inc., Bernsville, Pennsylvania.

This had been confirmed in a telephone conversation on January 15, 1985 with Dr. Harpal Singh, Chemist, of Enviro-Bio-Tech Ltd/Xienta Incorporated, License No. 37-19033-01. Dr. Singh stated that he had received the carbon-14 while he was employed by T & O Toxicology and that he did the work using the carbon-14 at Enviro-Bio-Tech laboratories. Dr. Singh also stated that the material generated from the experiment is currently stored at Enviro-Bio-Tech Ltd./Xienta Inc. He also confirmed that they are authorized to possess this material.

A close out survey, described in Report No. 030-17096/85-01 (copy enclosed) was conducted by Region I personnel on February 19, 1985 and demonstrates that the facility meets the "Guidelines for Release of Facilities..."

Based on the above information, we have retired License No. 37-19180-01.
