MR. BRUCE CARRICO
MATERIALS LICENSING BRANCH
RE LICENSE 15-21332-01

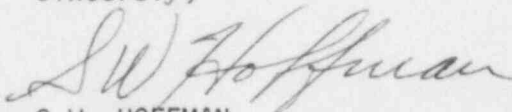

Dear Sir:

In reply to our phone conversation of January 31, regarding the R.A. Materials at 123 S. Pierce, Hominy, Oklahoma.

We did not carry any tracer materials at this location. I131 & IR192 are allowed by our license, but we at no time stored any at this location.

The R.A. Sources that we used from this location were kept in their transportation vaults. We had two sources at this location. A Cesium 137 2 curie, and AMBE 3 Curie Source. All surveys taken when we moved from this location were .015 to .025.

Sincerely,

S.W. HOFFMAN
