Attn: Mr. Paul R. Guinn  
Material Licensing Branch

Re: License No. 35-19213-01

Dear Mr. Guinn:

We are expanding our Oklahoma operations to add another facility. We enclose herewith a drawing of this facility located at 8528 West Reno, Oklahoma City, Oklahoma 73127. This drawing will also serve as a monthly survey form. We should be operational in this location sometime in August. Please add this location to our license.

Also enclosed is a drawing of a new facility located on U.S. Highway 70 west of Ardmore, Oklahoma, to be added to our license. This building is under construction and when completed we will move our Healdton station to this location. This should be in approximately 45-60 days. At that time we will take a final survey of the facility in Healdton and forward it on to you. Our consultant, Mr. Keith Moon, will assist us in making the inspection and conducting the survey upon vacating premises.

Please issue an amendment adding the two above locations and deleting the location south of Healdton on Hwy 76. Our check in the amount of \$110 for the amendment fee is also enclosed. Thank you for your attention to this matter.
