SUBJECT: NRC INSPECTION 999-90004/96-10 IN THE STATE OF UTAH

Dear Mr. Sinclair:

On September 5, 1996, the NRC completed an onsite inspection at the former location of the International Ranwick Limited mining operations near Bluff, Utah. During the site visit, soil samples were collected for analysis by our Region III office. The enclosed report presents the results of that onsite inspection, and the results of the soil sample analyses.

The inspection disclosed that surface mining operations did in fact occur; however, no evidence of byproduct material, in the form of tailings, was identified at the site. Therefore, the NRC plans no further action on this site.

Should you have any questions concerning this inspection, please contact Mr. Robert Evans at (817) 860-8234 or Mr. Charles L. Cain at (817) 860-8186.

Sincerely,

Ross A. Scarano, Director
Division of Nuclear Materials Safety

License No.: P-2802 (retired)
