SUBJECT: NRC INSPECTION REPORT 40-8907/96-01 (CORRECTED COPY)

Dear Mr. Velasquez:

This refers to our letter dated October 28, 1996, conveying to you the NRC Inspection Report 40-8907/96-01. In that letter we misidentified the facility inspected. This letter replaces that letter with the correct information.

An NRC inspection was conducted October 7-8, 1996, at your former Church Rock Uranium Mill site located in McKinley County, New Mexico. The enclosed report presents the scope and results of that inspection.

The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress. The inspection disclosed that you are appropriately controlling activities in accordance with NRC license conditions and regulations.

No violations or deviations were identified; therefore, no response to this letter is required.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

Should you have any questions concerning this inspection, please contact Ms. Linda Mclean at (817) 860-8116 or Mr. Charles Cain at (817) 860-8186.

Sincerely,

*Charles L. Cain*

for Ross A. Scarano, Director  
Division of Nuclear Materials Safety
