Docket Nos. 50-387  
and 50-388

Attached for your review is Change KK to the Susquehanna Steam Electric Station Physical Security Plan. Pursuant to 10 CFR 50.54(p), PP&L has determined that the changes do not decrease the safeguards effectiveness of the plan and may, therefore, be made without prior Commission approval.

This change is provided to detail the new management structure for the Nuclear Department at PP&L. The Plant Manager now assumes the security duties and responsibilities formerly assigned to the Vice President - Nuclear Operations. Other changes consist of minor editorial changes.

Pursuant to 10 CFR 73.21, the attachments to this letter should be withheld from public inspection.

Very truly yours,

R. G. Byram
