SUBJECT: NRC INSPECTION

Dear Ms. Colkitt:

This refers to the inspection conducted on September 20, 1996 at your facility in Bryan, Ohio. The purpose of the inspection was to verify the status of NRC licensed activities at the Regional Oncology Center of William County, Inc. The inspection consisted of tours of your proposed HDR facility and discussions with your Radiation Safety Officer. We noted that you have not acquired licensed materials since issuance of your NRC license on September 19, 1995. We understand that you still plan to purchase an HDR unit utilizing Ir-192.

No violations of NRC requirements were identified during the course of this inspection.

We remind you to notify NRC, promptly, in writing before receipt of your HDR unit or initiation of licensed operations.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practices," a copy of this letter will be placed in the NRC Public Document Room (PDR).

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

Original Signed by Roy J. Caniano
