and Inspection Programs

Charles E. MacDonald, Chief  
Transportation Certification Branch  
Division of Fuel Cycle and Material Safety

FROM: John T. Greeves, Chief  
Engineering Branch  
Division of Waste Management

SUBJECT: REVIEW OF INFORMATION ON NUPAC EA-210 HIC

Attached is one copy of a supplement to the Nuclear Packaging, Inc. (NuPac) Topical Report on the "Enviralloy Family of High Integrity Containers". This supplement concerns (1) the prototype testing of the EA-210 Series A high integrity container (HIC), which is one of the "family" members described in the topical report, and (2) a description analysis of an optional lifting configuration that is intended to permit remote handling. This submittal is being supplied to you to permit you to generate comments or questions as part of the NRC review of the topical report under Docket Number WM-84. A copy of the as-submitted topical report was supplied to you for review and comment in November 1984. Should you have any comments or questions on the supplement, please forward them to us by August 10, 1985.
