Re: Ford Nuclear Reactor Emergency Plan, Revision 15

Dear Mr. Michaels:

This letter covers the submittal of Revision 15 to the Ford Nuclear Reactor Emergency Plan.

All changes to the Plan are designated with a | 15 in the right hand margin. The changes are in the following areas:

1. Street name changes due to road construction and new University buildings are reflected in area maps shown in Figure 6 (Introduction) and Appendix 4.
2. The Nuclear Reactor Laboratory On-Call Supervisor is added to the line of succession for the Emergency Director in section 3.1.1. This addition makes the Emergency Plan consistent with the Ford Nuclear Reactor License (refer to Amendment 43), which was modified and approved to expand the list of individuals who may serve as Reactor On-Call Supervisor.
3. The retirement of Bob Burn from our staff means that his name no longer appears on emergency staff lists in Appendix 3.
4. Staffing changes due to staff departures and subsequent new hires are reflected in Appendix 4.
5. The room number for White Auditorium is added.

None of the changes are substantive, nor do they decrease the effectiveness of the Emergency Plan.

Sincerely,

Ronald F. Fleming

Ronald F. Fleming
Director, Michigan Memorial Phoenix Project
