Duke Power Company  
ATTN: Mr. H. B. Tucker, Vice President  
Nuclear Production Department  
422 South Church Street  
Charlotte, NC 28242

Gentlemen:

SUBJECT: NOTICE OF VIOLATION  
(INSPECTION REPORT NO. 50-413/85-27)

A special safeguards inspection was conducted by a member of the Region II staff on June 7-8, 1985, of activities authorized by Nuclear Regulatory Commission (NRC) Operating License No. NPF-35 for your Catawba facility. The NRC's concern relative to the inspection findings was discussed with you in an Enforcement Conference held at the Region II Office on July 3, 1985.

The purpose of this inspection was to review the circumstances of a security event reported by the licensee concerning a degradation discovered in a vital area barrier.

The inspection findings indicate that certain activities violated NRC requirements. The violation, references to pertinent requirements, and elements to be included in your response are presented in the enclosed Notice of Violation.

In accordance with 10 CFR 2.790(d) and 10 CFR 73.21, safeguards activities and security measures are exempt from public disclosure; therefore, the enclosures to this letter, with the exception of the report cover page which presents a nonexempt summary, will not be placed in NRC's Public Document Room.

The responses directed by this letter and the enclosed Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

Should you have any questions concerning this letter, please contact us.

Sincerely,

J. Nelson Grace  
Regional Administrator
