

MAY 30 1985

Docket No. 030-09867

License No. 29-09807-02

MEMORANDUM FOR: Maureen Moriarty, Licensing Assistance Section, FCMS, NMSS
FROM: John D. Kinneman, Chief, Nuclear Materials Section A
SUBJECT: EXPIRED LICENSE, ITT CORPORATION; CLIFTON, NEW JERSEY

On May 3, 1984, a licensee representative, Mr. Alan Leibowitz, Environmental Health and Safety Specialist, was contacted and informed that License No. 29-09807-02 had expired on April 30, 1984 and that no renewal application had been received. The licensee representative explained that they received and possessed licensed material, but now possess no licensed material and wish to have the license terminated.

Licensed material was disposed of by transferring it to Teledyne Isotopes for disposal. This was confirmed in letters from the licensee dated May 7, 1985 and by contact with Steve Black, Manager of Radiological Services of Teledyne Isotopes License No. 29-00055-14, who confirmed that they had received the licensed material from the licensee on May 7, 1985 and that they are authorized to possess this material.

Based on a review of the information supplied by the licensee and a review of the type and form of material authorized by the license, a closeout survey by the licensee is not required and this license may be retired.

Based on the above information, we have retired License No. 29-09807-02. Please remove it from your active shelves.

Original Signed By:
John D. Kinneman

John D. Kinneman, Chief
Nuclear Materials Section A
