Dear Mr. Viskocil:

Please find enclosed Amendment No. 16 terminating License No. 07-00455-28 as requested by the letter dated June 6, 1994 and concurrent with the issuance of Amendment Number 07 of License Number 07-13441-02.

Your cooperation with us is appreciated.

Sincerely,

REF: NRC License Renewal, #07-00455-02 *07-13441-02 ejb*

The attached application, check in the amount of \$2,300, and supporting documentation are submitted for the renewal for Type A license of broad scope for byproduct material assigned to the DuPont Stine-Haskell Research Center, License Number 07-00455-02, Docket Number 030-20681. The license application is being submitted at least 30 days prior to the license expiration date of July 31, 1994 to comply with the 10CFR30.37 provision for applications deemed timely such that the existing license does not expire until the application has been finally determined by the Commission.

The enclosed application is the third of three similar submittals for three DuPont R&D Sites located in the Wilmington, DE area and possessing Type A specific licenses of broad scope for byproduct material. The three locations are:

- Stine-Haskell Research Center
License No. 07-13441-02, Reference No. 030-20681
Expiration Date: 7/31/94
Newark, DE 19714
- Experimental Station
License No. 07-00455-02, Reference No. 030-03852
Expiration Date: 4/30/94
Wilmington, DE 19880
- Glasgow Business Community
License No. 07-00455-38, Reference No. 030-19936
Expiration Date: 5/31/94
Glasgow, DE 19702

In addition to the above licenses the DuPont Pencader Site located in Newark, DE is to be added to the Stine-Haskell Research Center License. Their current license number is 07-00455-28, Reference number 030-03860. This license will be terminated and the Stine-Haskell Research Center license will be amended to include the sealed sources located at the Pencader Site. Their current RSO, Joseph F. Viskocil will also be added to the Stine-Haskell Research Center's license as an alternate RSO.

Better Things for Better Living

SH-44 REV. 4/91

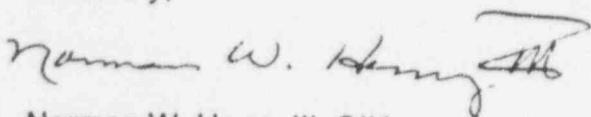

OFFICIAL RECORD COPY ML 10

These locations have similar research and development programs utilizing radioisotopes and are therefore developing similar radiation safety programs to manage them. Further, the RSO(s) from each site will serve as backup RSO(s) to the other two sites.

The intent to use similar radiation safety programs does not indicate or imply the sites will operate as a single licensed facility. Each site will continue to operate under the conditions of its respective license.

Please feel free to contact me by phone (302)366-5250 if there are any questions concerning this application for license renewal.

Sincerely,

A handwritten signature in dark ink, appearing to read "Norman W. Henry III", with a stylized flourish at the end.

Norman W. Henry III, CIH
Radiation Safety Officer
