5. Submit a complete renewal application (with proper fee) or termination request (no fee required) at least 30 days before the expiration date on your license. You should receive a reminder notice approximately 90 days before the expiration date. Continued distribution of products containing radioactive material after your license expires is a violation of NRC regulations.
6. In accordance with 10 CFR 30.36, request termination of your license if you plan to permanently discontinue activities involving distribution of products containing radioactive material.

You will be periodically inspected by NRC. Failure to conduct your program in compliance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC may result in enforcement action(s) against you. This could include issuance of a notice of violation; proposed imposition of a civil penalty; or an order suspending, modifying, or revoking your license as specified in the "General Statement of Policy and Procedures for NRC Enforcement Actions," (NUREG-1600).

Dear Mr. Barakat:

Enclosed is Amendment No. 20 amending NRC License No. 12-15537-02E in its entirety. A copy of your revised Registration Certificate will be forwarded to you under separate cover.

Please review the enclosed document carefully and be sure that you understand all the conditions. If there are any errors or questions, please contact me so that appropriate corrections and answers can be provided.

Please be advised that you must conduct your program involving radioactive materials in accordance with the conditions specified in your NRC license, representations made in your license application, and other rules, regulations, and orders of the U.S. Nuclear Regulatory Commission, now or hereafter in effect, to include the following:

1. Comply with applicable NRC regulations in 10 CFR Part 30, "Rules of General Applicability to Domestic Licensing of Byproduct Material"; 10 CFR Part 32, "Specific Domestic Licenses to Manufacture or Transfer Certain Items Containing Byproduct Material"; and other applicable regulations.

NOTE: Licensees authorized to distribute or initially transfer products containing byproduct material must also possess a valid possession license issued either by NRC or an Agreement State(s) which authorizes possession and use of byproduct material.

2. Distribute only those products containing radioactive material which are specifically authorized in your license.
3. Notify NRC in writing within 30 days of any change in mailing address (no fee is required if the location of radioactive material remains the same).
4. Request and obtain appropriate amendments if you plan to change control or ownership of your organization, change locations of distribution of products containing radioactive material, or make any other changes in your program which are contrary to the license conditions or representations made in your license application and any supplemental correspondence with NRC. A license fee may be charged for the amendments if you are not in a fee-exempt category.

SUBJECT: COMPANY OWNERSHIP CHANGE - LICENSE # 12-15537-02E

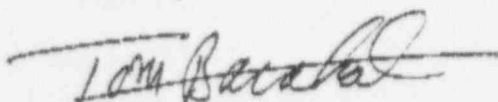

Dear Ms. Green:

Per our discussion today, and after my review of information in 89-25, I do not feel that an amendment is required to our license for the following reasons:

- 1) There are no changes to the current set-up and responsibilities. I will continue to conduct the radiation safety officer duties.
- 2) There is no change in the organizational structure of management, with the exception of president. Coleman will assign a new president effective with closing date.
- 3) There will be no changes made to procedures that are currently taken by Seatt. Coleman Co. agrees to all conditions on our License No. 12-15537-02E.

Please respond to me via fax your acceptance of this proposal so that we will have no problem at closing. Send your fax to my attention at 708-960-9302.

Dear Mr. Barakat:

I am responding to your November 22, 1995 and December 15, 1995, letters and our December 14, 1995, telephone conversation concerning the sale of Seatt's assets to The Coleman Company.

NRC Information Notice 89-25, Rev. 1: UNAUTHORIZED TRANSFER OF OWNERSHIP OR CONTROL OF LICENSED ACTIVITIES states that a license amendment may not be necessary if there are no changes in the licensed operation as a result of the sale. Based on the information you have provided and the commitment made that there will be no changes in the licensed activities or operation, it is not necessary to amend your exempt distribution license. Please note that your letters will be included in the Seatt license file for informational purposes.

Please feel free to contact me at (301) 415-7843 if you have any questions concerning this action.

Sincerely,

RE: **Amendment to License 12-15537-02E**

Dear Ms. Green:

We would like to amend our current distribution license number 12-15537-02E to include our facility in Wichita, Kansas as authorized site for distribution of smoke detectors. Enclosed is a copy of our possession license that we have obtained from the state of Kansas, along with a check in the amount of \$1,000.00 to cover this amendment.

Seatt Corporation has been replaced by Coleman Safety & Security Products, Inc. This name change was submitted to Mr. Chris Brown at your office. According to our last telephone conversation, you have indicated that this change could be processed within 4 to 6 weeks. Your cooperation in expediting within this time frame is greatly appreciated.

Please Let me know if you have any questions regarding this ammendment. I can be contacted on my direct line (630) 719-6330.

Sincerely,

Tom Barakat
