January 13, 1977

Dr. Roger J. Mattson, Director
Division of Siting, Health and
Safeguards Standards
Office of Standards Development
Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Dr. Mattson:

This is to acknowledge your letter received January 5, 1977 and to advise you of adjustment in time schedules.

We have requested ERDA approval for the international travel for Dr. Alice Stewart and George Kneale and the forms are being completed.

We are notifying ERDA that the meeting scheduled with them for the end of January - will now be rescheduled for the second week of February, which will mean a delay in your meeting.

It is our plan to consider the suggestions made at that first meeting and to have enough time to carry them out before arranging for a meeting with the representatives of the Nuclear Regulatory Commission.

Consequently, please advise Dr. M.A. Parsont of this - after the February meeting with ERDA we will know more precisely how much more time is required. We will contact you then as to what our plans are.

Sincerely,

8507220458 850524
