5. Submit a complete renewal application (with proper fee) or termination request (no fee required) at least 30 days before the expiration date on your license. You should receive a reminder notice approximately 90 days before the expiration date. Continued distribution of products containing radioactive material after your license expires is a violation of NRC regulations.
6. In accordance with 10 CFR 30.36, request termination of your license if you plan to permanently discontinue activities involving distribution of products containing radioactive material.

You will be periodically inspected by NRC. Failure to conduct your program in compliance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC may result in enforcement action(s) against you. This could include issuance of a notice of violation; proposed imposition of a civil penalty; or an order suspending, modifying, or revoking your license as specified in the "General Statement of Policy and Procedures for NRC Enforcement Actions," (NUREG-1600).

If you have any questions, please feel free to contact me at (301) 415-7843.

Sincerely,

21st Century Technologies, Inc.
ATTN: Patricia Wilson
President
2513 East Loop 820 North
Fort Worth, Texas 76118

Dear Ms. Wilson:

Enclosed is Amendment No. 06 terminating License No. 30-23697-01E (Enclosure 1) which is superseded by License No. 42-23850-02E (Enclosure 2) issued in its entirety. The change in license number is for administrative purposes only and reflects 21st Century Technologies' change of state. Please note that the NRC license number listed in your Texas possession license should be corrected to reflect your new NRC license number.

Please review the enclosed license carefully and be sure that you understand all the conditions. If there are any errors or questions, please contact me so that appropriate corrections and answers can be provided.

Please be advised that you must conduct your program involving radioactive materials in accordance with the conditions specified in your NRC license, representations made in your license application, and other rules, regulations, and orders of the U.S. Nuclear Regulatory Commission, now or hereafter in effect, to include the following:

1. Comply with applicable NRC regulations in 10 CFR Part 30, "Rules of General Applicability to Domestic Licensing of Byproduct Material"; 10 CFR Part 32, "Specific Domestic Licenses to Manufacture or Transfer Certain Items Containing Byproduct Material"; and other applicable regulations.

NOTE: Licensees authorized to distribute or initially transfer products containing byproduct material must also possess a valid possession license issued either by NRC or an Agreement State(s) which authorizes possession and use of byproduct material.

2. Distribute only those products containing radioactive material which are specifically authorized in your license.
3. Notify NRC in writing within 30 days of any change in mailing address (no fee is required if the location of radioactive material remains the same).
4. Request and obtain appropriate amendments if you plan to change control or ownership of your organization, change locations of distribution of products containing radioactive material, or make any other changes in your program which are contrary to the license conditions or representations made in your license application and any supplemental correspondence with NRC. A license fee may be charged for the amendments if you are not in a fee-exempt category.

RE: Materials License No. 30-23697-01E
Request for Amendment

Dear Ms. Green:

Attached is an application for amendment to the referenced materials license held by 21st Centuries Technology, Inc. Also attached is a check in the amount of \$1000.00 for the fee. The purpose of the amendment is to change the location of operations for 21st Century Technologies, Inc. (IWI) from 337 Eubank NE, Albuquerque, New Mexico 87123 to 2513 East Loop 820 North, Fort Worth, Texas 76118. In all other respects the license should remain the same.

On the 24th day of September, 1996, 21st Century Technologies, Inc. applied for a possession license from the State of Texas. We are informed that it will take approximately two weeks to process the application. There appears to be no complicating factors that would prolong that approval period.

We respectfully request that you begin the review of this license amendment and approve it subject to the issuance of the possession license by the State of Texas. We will inform you immediately upon receipt of that possession license and will forward appropriate documentation to your office and the regional office in Arlington.

If you have any questions concerning this matter or need additional information, please contact me immediately at 1-800-334-3573.

Sincerely,

Patricia Wilson
President

**APPLICATION FOR AMENDMENT TO
US NUCLEAR REGULATORY COMMISSION
MATERIALS LICENSE
LICENSEE: 21ST CENTURY TECHNOLOGIES, INC.
LICENSE NO.: 30-23697-01E
EXPIRATION DATE: MAY 31, 2001**

21st Century Technologies, Inc. respectfully requests an amendment to its existing Materials License No. 30-23697-01E for the purpose of changing its address and base of operations for distribution of gun sights from:

337 Eubanks NE
Albuquerque, NM 87123

To:

2513 East Loop 820 North
Fort Worth, Texas 76118

In all other respects, the existing license should remain the same.

The layout of the tritium room and quality control/quality assurance room are the same as the ones now set up in Albuquerque. The storing and containment of the tritium will be the same and the audit plan and training plan will also be the same as before. All inventory sheets will be kept in Patricia Wilson's file cabinet in the administration part of the company as before. All procedures will remain intact.

Respectfully submitted this 25th day of September, 1996.

Patricia Wilson
President
