Attention: Mr. Domenic B. Vassallo, Chief

Attachment: 1) Evaluation of Technical Specification Change with Respect to
10CFR50.92

Dear Mr. Vassallo:

Subject: Proposed Change No. 22 to Technical Specifications
Halon Fire Suppression System
Cooper Nuclear Station
NRC Docket No. 50-298, DPR-46

In accordance with the applicable provisions specified in 10CFR50, Nebraska Public Power District requests that the Technical Specifications for Cooper Nuclear Station (CNS) be revised to reflect the addition of a Halon fire suppression system in the station service water pump room as part of the District's Appendix R fire protection program. An evaluation of the proposed change with respect to the requirements of 10CFR50.92 and the applicable revised Technical Specification pages are contained in the attachment.

By copy of this letter and attachment, the appropriate State of Nebraska Official is being notified in accordance with 10CFR50.91(b). This proposed change incorporates all amendments to the CNS Facility Operating License through Amendment 91 dated May 13, 1985.

This change has been reviewed by the necessary Safety Review Committees and payment of \$150 is submitted in accordance with 10CFR170.12.

In addition to three signed originals, 40 copies are also submitted for your use. Should you have any questions or require additional information, please call.

Sincerely,

L. G. Kuncel
Assistant General Manager - Nuclear
