TELEPHONE: 217-379-4811

July 8, 1985

D.G. Wiedeman, Chief  
Nuclear Materials Safety Section 1  
U.S. Nuclear Regulatory Commission  
799 Roosevelt Road  
Glen Ellyn, Illinois 60137

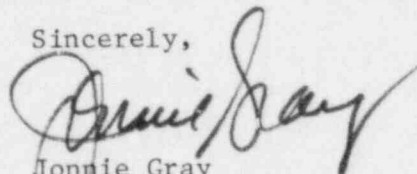

Dear Mr. Wiedeman:

In response to your letter of June 25, I submitted to Dr. Bruce S. Mallett on June 21, the results of our close-out survey. This information should be sufficient to allow for the cancellation of our NRC Byproduct Materials License No. 12-24318-01.

I have been informed as of this date, by Jeff Jacobson of Nuclear Diagnostics, Inc., that they do occupy the authorized facility specified in their NRC license, which should allow for the continuation of services at our hospital under their license.

If you need further information, please contact me. I hope to receive notification of the termination of our NRC license in the near future.

Sincerely,

  
Jonnie Gray  
Acting Administrator
