November 5, 1996

Dear Mr. Fitterer:

Enclosed is Quality Assurance Program Approval for Radioactive Material Packages No. 0103, Revision No. 7, as amended. This Approval satisfies the requirements of 10 CFR § 71.12(b) for a Quality Assurance Program approved by the Commission.

Please note the conditions in the Approval.

This Approval will remain in effect until the expiration date, indicated in Block No. 3. Termination of your materials license does not cause this Approval to be automatically terminated. If you wish to renew, amend, or terminate this Approval, please request it in writing.

In addition, as requested in your letter dated September 10, 1996, Quality Assurance Program Approval No. 0712 was terminated on October 3, 1996. Please note that records required by 10 CFR §§71.91 and 71.135 are to be retained for a period of three years.

This letter also serves as a reminder that if you are using or planning to use an NRC-approved packaging, you must be registered for use of that packaging with NRC. Registration for use of NRC-approved packagings should be made pursuant to 10 CFR § 71.12(c)(3).

Sincerely,

/s/
