SUBJECT: ISSUANCE OF AMENDMENT NO. 4 TO MATERIALS LICENSE NO. SNM-1999,  
CUSHING REFINERY SITE (TAC NO. L51418)

Dear Mr. Lux:

The Commission has issued the enclosed Amendment No. 4 to Materials License No. SNM-1999 for the Cushing Refinery Site. This amendment is in response to Kerr-McGee's license amendment request dated June 3, 1993, as supplemented by correspondence dated September 4, 1996, in which Kerr-McGee provided the information required by License Condition 11.D. The staff has concluded that Kerr-McGee has satisfied the requirements, and thus the license condition is no longer necessary to be included in License SNM-1999. Accordingly, License No. SNM-1999 is amended as follows:

11.D. Deleted

In Amendment No. 3, several corrections were inadvertently omitted. These omissions have been corrected in Amendment No. 4. Condition 11.A. had previously stated February 1, 1994, and has been corrected to May 1, 1994. Condition 11.I. had previously stated Will Rogers, as the Radiation Safety Officer, and has been corrected to Mr. Terence Moore. Condition 11.K. had two omissions in the licensee's submittal dates and has been corrected to include August 26, 1993, and January 5, 1994.

All other conditions of the license shall remain the same. The revised License No. SNM-1999, which incorporates Amendment No. 4, and the related Safety Evaluation are enclosed. Further, if you have any questions, please contact me at (301) 415-6605.

Sincerely,
