OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

Mr. Samuel J. Chilk
Secretary of the Commission
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Attention: Docketing and Service Branch

Dear Mr. Chilk:

NOTICE OF PROPOSED RULE -
ASME CODES AND STANDARDS
FOR NUCLEAR POWER PLANTS;
50 FR 20574-20575

We have reviewed the notice of proposed rulemaking which addresses the use of improved construction and inservice inspection techniques for nuclear power plants, specifically through regulations which will incorporate the referenced addenda of Section III, Division 1, and Section XI, Division 1 of the ASME Boiler and Pressure Vessel Code. The proposed rule in effect calls for a closer conformance with the requirements of the New Jersey Administrative Code, Chapter 90, which requires compliance with the latest edition of the ASME Boiler and Pressure Vessel Code, and we find this to be acceptable.

We appreciate the opportunity to comment on this proposed rulemaking.

Very truly yours,
