Midland, MI 48640

SUBJECT: CORRECTED COPY TO AMENDMENT NO. 2 TO DDP SPECIALTY
ELECTRONIC MATERIALS US, INC., NRC LICENSE NO. 21-35537-01

Dear Ms. Myers:

Enclosed is a corrected copy to Amendment No. 2 to your U.S. Nuclear Regulatory Commission (NRC) Materials License No. 21-35537-01. We have noted an error in the U.S. NRC's Agencywide Documents Access and Management System (ADAMS) Accession Number for the July 2019 letter referenced in Condition No. 26.C. to your license. That Accession Number is updated in this corrected copy. The NRC's ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Please review the enclosed document carefully, and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. NRC Region III Office at 630-829-9887, so that we may provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under Title 10 of the *Code of Federal Regulations* (CFR) Section 51.22(c).

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through NRC's ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390 of the NRC's "Rules of Practice and Procedure," the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC's Generic Communications Web page under "Regulatory Issue Summaries" at <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/> and the link for frequently asked questions regarding protection of security-related sensitive information may be located at <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>.

The enclosures to this letter contain sensitive security-related information.
When separated from this cover letter this letter is uncontrolled.

C. Myers
