OCT 11 1984

Florida Power and Light Company
ATTN: Mr. J. W. Williams, Jr.
Group Vice President
Nuclear Energy Department
P. O. Box 14000
Juno Beach, FL 33408

Gentlemen:

SUBJECT: REPORT NOS. 50-250/84-23 AND 50-251/84-24

On July 15 - August 17, 1984, NRC inspected activities authorized by NRC License Nos. DPR-31 and DPR-41 for your Turkey Point facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection findings indicate that certain activities violated NRC requirements. The violations, references to pertinent requirements, and elements to be included in your response are presented in the enclosed Notice of Violation.

Please note an additional example of a previous violation from Inspection Report Nos. 50-250, 251/84-09 is addressed in paragraph 3. In your response to the previous violation, the cause of the event was stated that design changes (PCM's) were incorrectly identified as non-nuclear safety related and consequently did not received the appropriate review. Please address the specific corrective actions taken, or to be taken, to assure that PCM's both previously evaluated and to be evaluated are correctly classified.

Your attention is invited to unresolved items identified in the inspection report. These matters will be pursued during future inspections.

In accordance with 10 CFR 2.790(a), a copy of this letter, its enclosures, and your reply will be placed in NRC's Public Document Room upon completion of our evaluation of the reply. If you wish to withhold information contained therein, please notify this office by telephone and include a written application to withhold information in your response. Such application must be consistent with the requirements of 2.790(b)(1).

The responses directed by this letter and the enclosures are not subject to the clearance procedures of the Office of Management and Budget issued under the Paperwork Reduction Act of 1980, PL 96-511.
