Edison, New Jersey 08820

Gentlemen:

This is in reference to your application dated March 31, 1983, to renew License Number 29-14171-01 and to our request for additional information dated August 6, 1984.

By letter dated October 5, 1984, we informed you that a response to our August 6, 1984, letter had not been received and that we might find it necessary to deny your application if a reply was not received within thirty (30) days. On November 5, 1984, you called this office requesting a thirty (30) day extension to prepare your response. On January 9, 1985, Dr. John Glenn, Chief, Nuclear Materials Safety Section B informed you by telephone of the necessity of a prompt reply to our letter. You promised to submit your reply by the first week of February.

As of this date, this office has not received your reply. Please be informed that if within 10 days of the date of this letter a response has not been received, formal proceedings to deny your application and to terminate your license will begin. Such action will require that you divest yourself of all licensed material.

Sincerely,

James H. Joyner, Chief
Nuclear Materials Safety
and Safeguards Branch

Enclosure: Letter dated August 16, 1984.
