**Re: Bluewater Mill Site Construction Completion Report for the BMPCB
and Special Waste Disposal Cells - Addendum No. 4
License No. SUA-1470, Docket No. 40-8902**

Dear Mr. Holonich:

Enclosed please find five copies of the Construction Completion Report for the Bluewater byproduct materials containing PCBs (BMPCB) and byproduct Special Waste Disposal Cells at the Bluewater Uranium Mill Site. This report addresses the specific construction activities completed for both cells and includes drawings, quality control sampling of the various construction materials placed and progress photographs as required for documentation of the project.

This report provides additional construction documentation of work accomplished at the Mill Site and is to be included as Addendum No. 4 to the Bluewater Uranium Mill Site Reclamation Completion Report dated March 1996.

Should you have any questions regarding this addendum, please contact me in Montana at (406) 563-5211, ext. 418. For specific questions concerning construction and quality control sampling, contact Christopher Sanchez of Anderson Engineering Co., Inc. at (505)285-6484 and Natver Patel of AVM Environmental Services, Inc. at (505)287-4593 for any radiological questions or concerns.

Sincerely,

R. S. Ziegler
Operations Manager
