Dear Mr. Hadley:

This letter provides an update of the 10 CFR 2.206 Petition you submitted on August 21, 1995, as supplemented August 28, 1995, on behalf of Mr. George Galatis and the group, We the People, Inc. The staff is still reviewing the issues raised by the petitioners.

On October 9, 1996, the staff requested information, pursuant to 10 CFR 50.54(f), from power reactor licensees (with the exception of the licensee for the Millstone units) related to licensing basis adherence. Specifically, the staff required that the information be provided to the NRC to ensure that the licensees' facilities are being operated and maintained within their licensing basis. For your information, I am including a letter that was sent to North Atlantic Energy Service Corporation regarding the Seabrook Station. This letter is similar those sent to the other licensees.

Should you have any questions concerning this issue, please call me at (301) 415-1455.

Sincerely,
