Executive Director for Operations
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555-0001

Dear Mr. Taylor:

In my letter of October 31, 1996, I indicated I would provide a list of specific questions raised by industry executives concerning your request for design bases information. At a meeting of industry executives held on November 13, your request for information was discussed. The issues are clear to the executives. No substantial questions remain and, therefore, I see no need for a meeting.

I appreciate your willingness to discuss this matter.

Sincerely,

Ralph E. Beedle
