Mr. W. T. Crow, Acting Chief  
U. S. Nuclear Regulatory Commission  
Uranium Fuel Licensing Branch  
Division of Fuel Cycle & Material Safety  
Washington, D.C. 20555

Subject: Docket No. 70-371  
SNM License No. 368

70-371

Reference: Letter W. T. Crow to W. F. Kirk dated February 27, 1985,  
License Condition #28

Dear Sir,

The purpose of this letter is to advise you of progress to date regarding our septic field soil profile analysis and of a delay in the submission of the report of the findings.

The field has been surveyed, staked, and soil borings taken. Soil samples have been sent (8-26-85) to our vendor for analyses as specified in the Immediate Plan section of our letter dated 8-19-83.

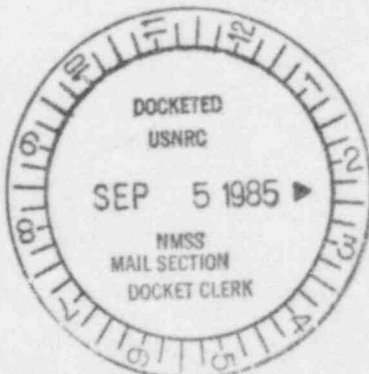

The vendor is projecting a turn around time of 3-5 weeks and, based on receipt of this data we expect to submit the report of the findings to NRC by October 30, 1985.

This subject was discussed in a telephone conversation between your Mr. George Bidinger and our Mr. Don Luster on 8-26-85.

Very truly yours,

*W. F. Kirk*  
W. F. KIRK, Manager  
Nuclear & Industrial Safety
