Dear Sir or Madam:

The Ohio Lime Company acquired the assets of the J.E. Baker Company at Millersville, Ohio as of 11 PM January 18, 1983. We, the Ohio Lime Company, request an ammendment to our license # 34-18906-01 to include their nuclear equipment on our license.

All procedures laid down in our license will be strictly adhered to and the device will remain at its present site at the Millersville location.

The individuals responsible for directly supervising the use of the licensed material on license # 34-18906-01 will remain the same with the addition of Mr. Helmut N. Ferch - Plant Superintendent at the Millersville location. Mr. Ferch has had considerable experience in the cement-calcining business where these devices are used extensively. Prior to his joining the Baker staff he was employed for approximately 10 years at Kalauas Cement, San Anreas, California.

Attached is a check for \$40. to cover the ammendment cost.

Sincerely,

OHIO LIME COMPANY

T. D. Holland
