The Honorable Thomas Railsback
United States House of Representatives
Washington, D. C. 20515

Dear Congressman Railsback:

The letter transmitted to you by Mrs. L. F. Wiklund was a copy of a letter that was filed with the Nuclear Regulatory Commission (NRC) in response to a Federal Register notice published on January 6, 1978. This notice requested public comments on the NRC staff's review of an application to amend the license for the Sheffield, Illinois, low-level waste burial facility to permit use of an additional trench (Trench 15). A copy of the Federal Register notice is enclosed.

Mrs. Wiklund's letter was one of thirty-three comments that were filed with the NRC in response to the notice. The responses included three requests for a hearing on the proposed action, which are currently pending before an Atomic Safety and Licensing Board. The staff is in the process of reviewing the technical merits of the application, and has not yet completed its evaluation.

The NRC's responsibilities and activities concerning the Sheffield facility were recently discussed in testimony presented to the Environment, Energy and Natural Resources Subcommittee of the House Government Operations Committee, a copy of which is enclosed. As stated in the testimony, no public health and safety problems have been identified due to operation of the Sheffield site. A site monitoring program has been established which is designed to detect potential problems in sufficient time to take any needed corrective measures. Further, the site is inspected at regular intervals by both the NRC and the Illinois health department. Preparation of an Environmental Impact Statement (EIS) for the Sheffield site is underway and the Draft EIS is scheduled to be issued this year. The NRC has announced that public hearings will be held on a separate application to renew the site license and expand the site, and intervenor status has been granted to the State of Illinois, the County of Bureau, Illinois, and to a group of local citizens.

C.R. 215.T
UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

March 10, 1978

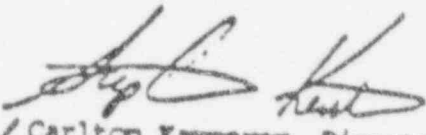

The Honorable Tom Rallsback
United States House of Representatives
Washington, D.C. 20515

Dear Congressman Rallsback:

This is to acknowledge receipt of your letter dated
February 27, 1978 enclosing correspondence from one of
your constituents, Ms. Joanne Wiklund.

Your letter will receive our prompt attention and
a reply will be forwarded to you as soon as possible.

Sincerely,

Carlton Kammrater, Director
Office of Congressional Affairs

SECRETARIAT RECORD COPY

SECRETARIAT RECORD COPY

Jan. 29, 1973

U. S. Rep. Thomas Railsback
2431 Rayburn House Office Bldg.
Washington, D. C. 20515

Dear Congressman:

I am enclosing a carbon copy of a letter that I sent to the U. S. Nuclear Regulatory Commission regarding the Sheffield dump.

I am totally opposed to the use of nuclear power in our country. I would like to see the generating station at Cordova closed and the new station scheduled to be built at Spring Hill near Erie, Ill, stopped. I believe we must make a commitment to our children and their children's children to leave them a clean world.

Please do what ever you can to see that Illinois is not used as the nation's dump. And if I am truly my brother's keeper, I will close up this giant polluter and not put my waste in someone else's yard.

My best to you and Paddy Kalahar.

Sincerely,

Joanne Wiklund
Joanne Wiklund

2062 224

January 29, 1978

Secretary
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Attn: Docketing and Service Branch

Dear Sirs:

You asked for comment on the request to open a new trench for the burial of low-level radioactive waste at the nuclear dump near Sheffield, Ill. As the opinions you ask for will not come from the proper source.

You want, I'm sure, the opinions of those people who will be most affected by this action. The problem is, dear gentlemen, that you cannot ask them. They are too little. My niece, for one, is but two months old. She does not live in Sheffield; she lives in Cordova, Ill., not far from a nuclear generation plant.

This plant was built while I was growing up in that small town. The residents at that time believed many of the things they were told about the radioactivity not harming them, and how good it would be for the economy of the area. They were not warned, however, of the changing river water temperatures, fish kills, and radioactivity from this plant's waste in someone else's drinking water. They were also not told that by allowing this station to be built, they would be participants in polluting someone else's back yard. They were told safe disposal was possible.

So for my niece, and my nephew, who is just three months older than her and lives in the same town, I object. I object on their behalf to the pollution of God's earth, if it means I have to build a wood fire in my fireplace and beside it to keep warm and seek over it if I have to. I object also for my two children, who are now in the sunny teen years that I was in while the giant polluter was being built in my back yard.

And finally, I object for myself, since years ago I was deprived of this privilege to object because of my own age.

We must look for alternative energy sources to this ugly chemical killing of God's good earth, which he gave us dominion over.

Dominion—to rule over with absolute power.

I absolutely object.

DCS PARTIAL RECORD FORMAT REPORT

- 7812130225 NRC Staff Motion seeking until 781201 to reply to applicant Nuc Engineering Co's Motion to compel Staff to file a draft EIS. Addl time sought principally because lead atty has left NRC for private practice. Cert of Svc encl.
FROM: REIS, E. J. Office of the Executive Legal Director (Pre 860701)
TO:
ISSUED: 781117 AVAIL: PDR 5pp. DOCUMENT TYPE: TTPLED FPAC: 7812130225
TASK: ODID: DIN: PLED-781117 DPN: DRN:
DOCKET NO: 02700039 FICHE: 94306 124 94306 128 RIDs:
- 7811300381 Ack receipt of NRC staff motion for delay in response to motion to compel. NRC motion fails to show good cause. States no objection to an order granting extension until Nov 25 for intervenors to file reply.
FROM: CONNER, T. B. Conner, Moore & Corber
TO: ROSENTHAL, A. S. Atomic Safety & Licensing Appeal Panel (Pre 910701)
ISSUED: 781121 AVAIL: PDR 3pp. DOCUMENT TYPE: CLINC FPAC: 7811300381
TASK: ODID: DIN: 781121 DPN: DRN:
DOCKET NO: 02700039 FICHE: 94136 254 94136 256 RIDs:
- 7812130047 States staff's motion does not show good cause. Affidavits defending staff's delays have nothing to do w/prompt pub of DES. Licensee would not object to an order granting extension until Nov 25. Requests bd ruling before 781201.
FROM: CONNER, T. B. Conner, Moore & Corber
TO: Atomic Safety & Licensing Board Panel
ISSUED: 781121 AVAIL: PDR 3pp. DOCUMENT TYPE: CLINC FPAC: 7812130047
TASK: ODID: DIN: 781121 DPN: DRN:
DOCKET NO: 02700039 FICHE: 94307 183 94307 185 RIDs:
- 7812220130 Corrects NRC's misinterpretation of statement made in Licensee's Motion to Compel Filing of Draft Environ Impact Statement. Request for approval of burial on 20 acre site is the only part of "pre-1977 appl" that is being withdrawn.
FROM: CONNER, T. B. Conner, Moore & Corber
TO: REIS, E. J. Office of the Executive Legal Director (Pre 860701)
ISSUED: 781128 AVAIL: PDR 2pp. DOCUMENT TYPE: CLINC FPAC: 7812220130
TASK: ODID: DIN: 781128 DPN: DRN:
DOCKET NO: 02700039 FICHE: 94344 110 94344 110 RIDs:
- 7812180297 NRC Staff opposes Nuc Engr Co motion to compel filing of environ impact statement since ASLB lacks auth to order issuance. Delays have been caused by applicant & not staff & EIS must consider alternative sites. Cert of Svc encl.
FROM: REIS, E. J. Hearings Division
TO:
ISSUED: 781201 AVAIL: PDR 24pp. DOCUMENT TYPE: TTPLED FPAC: 7812180297

Sheffield Site

The State of Illinois and U. S. Ecology, the operator of the Sheffield Low Level Waste Site, have decided to try to resolve outstanding issues concerning closure before Illinois becomes an agreement state (scheduled for January 1, 1987). The State, U.S. Ecology, and the NRC staff will be meeting with the ASLB in a pre-hearing conference on August 19, 1986. The purpose of the conference (subject to modification) is to 1) come to agreement on what closure issues are outstanding, 2) obtain ASLB decision to have a hearing, and 3) schedule discovery if a hearing is approved. NRC staff involvement is expected to be moderate in preparation for the pre-hearing conference, but may be heavy in preparation for the ASLB hearing, as the staff may have to be able to support technically every closure condition.

Illinois Training on 10 CFR Part 61

Waste Management staff conducted a one-day seminar on 10 CFR 61 in Springfield, Illinois on August 13, 1986. Ten staff persons from the Department of Nuclear Safety participated. The participants are involved in Illinois' efforts to develop and license a new LLW site. They represent various disciplines including health physics, earth sciences, public participation and law. The participants were familiar with Part 61 and the seminar provided an opportunity to further understand the concepts and provisions.
