SEP 18 1985

Docket No. 30-17535

License No. 37-19392-01

MEMORANDUM FOR: Maureen Moriarty, Licensing Assistance Section, FCMS, NMSS

FROM: John D. Kinneman, Chief, Nuclear Materials Section A

SUBJECT: EXPIRED LICENSE, DEPARTMENT OF LABOR, MINE SAFETY AND HEALTH
ADMINISTRATION, PITTSBURGH, PENNSYLVANIA

On August 6, 1985, a licensee representative, Mr. Wayne Wooddruff, Physical Science Technician, was contacted and informed that License No. 37-19392-01 had expired on May 31, 1985 and that no renewal application had been received. The licensee representative explained that they possessed a Nickel-63 sealed source and plan to apply for a new license. The licensee representative confirmed that an application would be filed, and that the licensed material would be maintained in secure storage until a new license was received. An application for a new license was received on August 14, 1985.

Based on a review of the information supplied by the licensee and a review of the type and form of material authorized by the license, a close out survey by the licensee is not required and this license may be retired.

Based on the above information, we have retired License No. 37-19392-01. Please remove it from your active shelves.
