Dear Mr. Whitworth:

This refers to your letter dated December 2, 1996 (copy enclosed), requesting an amendment to License No. 42-01485-06E. While it is necessary to amend your possession license (License No. 42-01485-04) when changing radiation safety officers, it is **not** necessary to amend your -06E exempt distribution license because the listing of a radiation safety officer is not required for this type of license. Therefore, you will not receive an amended -06E license, but we will include your letter in your exempt distribution license file for information purposes only. I have forwarded a copy of your letter to the NRC Region IV office to amend your -04 possession license.

If you have any questions concerning this action, please contact me at (301) 415-8140.

Sincerely,
