LIC. FEE MON. BRANCH

Gentlemen:

We wish to amend our By-product Material License referenced above by deleting paragraph 12 in its entirety and substituting the following:

12. Licensed material shall be used by only those personnel who as a minimum have completed the manufacturer's training or equivalent, demonstrated their knowledge in safe use of the equipment, and have been designated by the radiation protection officer.

We need to make this change due to compaction technicians changing and seasonal needs to increase or decrease the number of technicians because of the nature of the construction industry. A certificate of training or equivalent and qualifications of each technician will be maintained at this office.

Attached is a check for \$40.00 for the amendment fee. If any further information is needed, please contact this office.

Sincerely,

G. E. RAY CONSTRUCTION CO., INC.
