Re: Amendment to our Radioactive
Material License # 12-02418-01

Dear Dr. Cooper,

As per our phone conversation I am providing herewith the following information:

- 1) Training and experience for Gilbert A. Lawrence, M.D. so that he may be licensed to use the biproduct material listed in groups IV and V of Schedule A, Section 35,100 of 10 CFR 35 (an equivalent form KLM 003.01 Supplement B submitted to State of Illinois, Department of Public Health is enclosed).
- 2) A copy of preceptor's statement for J. Singh, M.D. is attached so that he may be licensed to use I-131 for treatment of thyroid carcinoma.
- 3) We would like to add the name of L. Rosenbloom, M.D., Department of Nuclear Medicine, Lutheran General Hospital, Park Ridge, Illinois, to our license.
- 4) We plan to discontinue the use of monitoring wrist badges from July 1979. Also the finger badges supplied by Landauer & Co. are TLD badges.

I hope that the enclosed information is sufficient. I will be happy to provide you with any additional information. Thank you.

Sincerely,

A.G. Kaluskar

A.G. Kaluskar, Ph.D.,
Radiation Physicist and Radiation Protection Officer
